(54) Title: **VOICE MULTI-TAP APPARATUS**

(57) Abstract: A voice multi-tap apparatus for a communications system, the apparatus including an input connector (12) accom-
modating at least four input circuits, plurality of output connectors (13a-13d) incorporating respective output circuits coupled to
respective input circuits; and at least one of said output connectors incorporating a second output circuit coupled to one of the input
circuits via a switching device (14) whereby the operation of said switching device allows said at least one output connector service
two circuits.
